#DoWhatYouLove #MASHCamp
Powered by Human Circle and MASH

11th-12th July 2015

Why?

We believe that we have reached a point in our development, where the new generation is demanding a dynamic educational, corporate and social system that allows them to do what they love. There is a need to create a transformational culture that allows people to reach their highest potential.

As per the national employability report 2013, 47% graduates are not employable in any sector of the knowledge economy. Since a graduation degree is considered a pathway to a job in the knowledge economy, substantive intervention at school and college level is needed to improve basic skills of students and more importantly help them discover what they love doing.

Context

Every third person in an Indian city today is a youth. In about seven years, the median individual in India will be 29 years, very likely a city-dweller, making it the youngest country in the world. India is set to experience a dynamic transformation as the population burden of the past turns into a demographic dividend, but the benefits will be tempered with social and spatial inequalities. Youth is not only the Future of India, but it is the epicenter of the biggest pillar the country rests upon.

We want to support this new generation in their quest for self-awareness and excellence. We think the best way to begin this revolution is to connect them with people who are innovative and passionate about impacting people and creating a more sustainable future.

What?

Choosing the right career is definitely a task, especially in the early twenties. There's a constant dilemma about aspirations and the plethora of options available. To help you sort the confusions and give wings to your dreams, **MASH Project** in alliance with **Human Circle** has organised a **#DoWhatYouLove #MASHCamp**.

- ✓ The two days, 11th -12th July 2015, i.e., Saturday and Sunday will focus on career and life skills .
- ✓ The key speakers will be from the leading organisations in the social and corporate sector and they will share insights from their expertise.
- ✓ All sessions and activities are designed in an engaging and fun way, with participants from various colleges and universities.
- ✓ There will also be ice- breaking and team- building activities, along with some review and planning.

You should attend because -

- The dynamic pool of knowledge will enable you to access information from the experts as well as the fellow mates; hence will expand your knowledge horizon many folds.
- Such events serve as a platform for social interactions and prove a great learning experience.
- A sure shot way to hone your management/social skills and be more confident by undertaking tried and tested activities
- Such events build appreciation within the team; help achieve a better understanding and belongingness towards the organization and its goals. Since most of the work is done virtually, to meet and greet your co- workers in person, is a great chance for you.

About Organisers: MASH Project and Human Circle

MASH Project was initiated with a vision to build a community of technology enabled social change makers. Harnessing modern technology, organising various events such as Hackathons and interactive team-building sessions is a decent way to achieve this vision.

Human circle is a movement to inspire and enable you to follow your passion and #DoWhatYouLove. It is an experiential platform comprising of physical and virtual forums like conferences, workshops, retreats and online communities, to empower people with mindsets and skills needed to become impact individuals. The idea is to connect like-minded people to experience breakthroughs and shifts.

This hangout is being exclusively organized for the team members of MASH Project and Human Circle.

How?

Learning Methodology - Theory U An Experiential Learning System

This **#DoWhatYouLove #MASHCamp** is exclusively designed for Human Circle and MASH team members to discover what they love doing, develop some key skills and connect with like-minded individuals to build a tribe for learning, action and co-creation. The agenda will be full of inspiring speaking sessions and engaging games and activities.

Using time-tested and global scientific modules like **'Art of Hosting, 'Theory U' and 'Dream-lining Technique'**, we are looking to provide a unique learning experience to inspire, empower and connect all the team members.

What is Experiential Learning?

Experiential learning is the process of making meaning from direct experience, i.e., "learning from experience". The experience can be staged or left open. Aristotle once said, "For the things we have to learn before we can do them, we learn by doing them".

What is Art of Hosting?

The Art of Hosting is a highly effective way of **harnessing the collective wisdom and self-organizing capacity of groups of any size**. Based on the assumption that people give their energy and lend their resources to what matters most to them – in work as in life – the Art of Hosting blends a suite of powerful **conversational processes** to invite people to step in and take charge of the challenges facing them.
